CLASS F, ENGRAVINGS, CUTS, AND PRINTS

Arranged alphabetically by proprietors with subalphabet of titles.

Of this Catalogue Part 2 (Periodicals), Part 3 (Music), Part 4 (Engravings), will be issued monthly hereafter, instead of weekly. Part 1 (Books) will be issued every week as heretofore. The weekly issue of the numbers of Parts 2, 3, and 4 necessitated search through several short alphabets in order to locate any given title. To avoid this inconvenience it has been suggested that they be published monthly, so that a search through a year of the Catalogue will require the examination of only 12 indexes instead of 52 as formerly.

The last weekly issue of Part 3 (Engravings. Chromos. Photographs. Fine Arts) was on October 18, 1906. The first monthly issue is under date of November 15, 1906.

To save space the copyright notice after each title is abbreviated. Thus the notice after the first title, if printed in full, would read, "Copyright by George F. Adams, Fortress Monroe, Va. Class F, XXc, no. 47810, Dec. 4, 1906; 2 copies received Dec. 4, 1906."

CLASS F, ENGRAVINGS, CUTS, AND PRINTS

Arranged alphabetically by proprietors with subalphabet of titles.

Of this Catalogue Part 2 (Periodicals), Part 3 (Music), Part 4 (Engravings), will be issued monthly hereafter, instead of weekly. Part 1 (Books) will be issued every week as heretofore. The weekly issue of the numbers of Parts 2, 3, and 4 necessitated search through several short alphabets in order to locate any given title. To avoid this inconvenience it has been suggested that they be published monthly, so that a search through a year of the Catalogue will require the examination of only 12 indexes instead of 52 as formerly. The last weekly issue of Part 3 (Engravings, Chromos, Photographs, Fine Arts) was on October 18, 1906. The first monthly issue is under date of November 15, 1906. To save space the copyright notice after each title is abbreviated. Thus the notice after the first title, if printed in full, would read, "Copyright by Julia M. Alexander, Charlotte, N. C. Queen Charlotte, wife of George III, King of England. Class F, XXc, no. 48602, Dec. 27, 1906; 2 copies received Dec. 18, 1906."

CLASS F, ENGRAVINGS, CUTS, AND PRINTS

The Catalogue of Copyright Entries appears each week. As the issue of Part 4 would necessitate the printing of a number of small alphabets for the different subject-matters contained in this Part—namely, Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts—it has been suggested that to avoid the inconvenience of searching such a number of small alphabets this Part of the Catalogue be made to include all the titles entered during each month instead of each week for Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts. Instead, therefore, of a possible examination of 52 indexes in the case of each subject-matter, it will now be necessary to examine only 12 indexes during the year.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space the copyright notice after each title is abbreviated. Thus the notice after the first title, if printed in full, would read, "Copyright by American art news co., New York, N. Y. Class F, XXc, no. 48995, Dec. 31, 1906; 2 copies received Dec. 31, 1906."

CLASS F, ENGRAVINGS, CUTS, AND PRINTS

The Catalogue of Copyright Entries appears each week. As the issue of Part 4 would necessitate the printing of a number of small alphabets for the different subject-matters contained in this Part—namely, Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts—it has been suggested that to avoid the inconvenience of searching such a number of small alphabets this Part of the Catalogue be made to include all the titles entered during each month instead of each week for Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts. Instead, therefore, of a possible examination of 52 indexes in the case of each subject-matter, it will now be necessary to examine only 12 indexes during the year.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space the copyright notice after each title is abbreviated; the statement as to receipt of copies is always omitted when the copies are received on the same day as the day of entry. The notice after the first title, if printed in full, would read, "Copyright by American-journal-examiner, New York, N. Y. Class F, XXc, no. 50957, Feb. 25, 1907; 2 copies received Feb. 25, 1907."

CLASS F, ENGRAVINGS, CUTS, AND PRINTS

The Catalogue of Copyright Entries appears each week. As the issue of Part 4 would necessitate the printing of a number of small alphabets for the different subject-matters contained in this Part—namely, Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts—it has been suggested that to avoid the inconvenience of searching such a number of small alphabets this Part of the Catalogue be made to include all the titles entered during each month instead of each week for Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts. Instead, therefore, of a possible examination of 52 indexes in the case of each subject-matter, it will now be necessary to examine only 12 indexes during the year.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space the copyright notice after each title is abbreviated; the statement as to receipt of copies is always omitted when the copies are received on the day of entry. The notice after the first title, if printed in full, would read, "Copyright by Alpha Delta Phi, Macon, Ga. Class F, XXc, no. 52623, Apr. 10, 1907; 2 copies received Apr. 10, 1907."

CLASS F, ENGRAVINGS, CUTS, AND PRINTS

The Catalogue of Copyright Entries appears each week. As the issue of Part 4 would necessitate the printing of a number of small alphabets for the different subject-matters contained in this Part—namely, Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts—it has been suggested that to avoid the inconvenience of searching such a number of small alphabets this Part of the Catalogue be made to include all the titles entered during each month instead of each week for Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts. Instead, therefore, of a possible examination of 52 indexes in the case of each subject-matter, it will now be necessary to examine only 12 indexes during the year.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space the copyright notice after each title is abbreviated; the statement as to receipt of copies is always omitted when the copies are received on the day of entry. The notice after the first title, if printed in full, would read, "Copyright by J. P. Acomb, Cincinnati, Ohio. Class F, XXc, no. 54160, May 11, 1907; 2 copies received Apr. 29, 1907."

CLASS F, ENGRAVINGS, CUTS, AND PRINTS

The Catalogue of Copyright Entries appears each week. As the issue of Part 4 would necessitate the printing of a number of small alphabets for the different subject-matters contained in this Part—namely, Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts—it has been suggested that to avoid the inconvenience of searching such a number of small alphabets this Part of the Catalogue be made to include all the titles entered during each month instead of each week for Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts. Instead, therefore, of a possible examination of 52 indexes in the case of each subject-matter, it will now be necessary to examine only 12 indexes during the year.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space the copyright notice after each title is abbreviated; the statement as to receipt of copies is always omitted when the copies are received on the day of entry. The notice after the first title, if printed in full, would read, "Copyright by W. C. Allen, Brooklyn, N. Y. Class F, XXc, no. 54710, May 31, 1907; 2 copies received May 22, 1907."

It doesnt necessarily follow that a
man loves his wife.
It makes a girl feel awfully sad at
times.
It may take a woman longer to make
up her face.
It takes sarcastic women and busy
bees.
It's an easy matter for a doctor to re-
lieve.
Man may walk right up without walk-
ing upright.
Man of very few words usually has a
wife.
Many a womans greatness is due to
the smallness.
Men have their troubles the same as
women.
Most attractive peaches grow on fam-
ily trees.
Music even has charms for the sav-
age.
Never judge a man by the company
he keeps.
Only a perfectly fiendish man would
set.
Small boys idea of the Board of
Health.
Smiles cost less than electric lights.
Tender thoughts are never directed.
When a girl objects to being kissed.
When a man marries for money.
While man wants but little here be-
low.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space, the copyright notice after each title is abbreviated; the statement as to receipt of copies is always omitted when the 2 copies have been received on the day of entry. Thus the notice after the first title, if printed in full, would read: Copyright by American motor car manufacturers' association, New York, N. Y. CLASS F, ENGRAVINGS, CUTS, AND PRINTS

The Catalogue of Copyright Entries appears each week. As the issue of Part 4 would necessitate the printing of a number of small alphabets for the different subject-matters contained in this Part—namely, Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts—it has been suggested that to avoid the inconvenience of searching such a number of small alphabets this Part of the Catalogue be made to include all the titles entered during each month instead of each week for Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts. Instead, therefore, of a possible examination of 52 indexes in the case of each subject-matter, it will now be necessary to examine only 12 indexes during the year.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space the copyright notice after each title is abbreviated; the statement as to receipt of copies is always omitted when the copies are received on the day of entry. The notice after the first title, if printed in full would read, "Copyright by Ina M. C. Adams, Baltimore, Md. Class F, XXc, no. 56218, July 13, 1907; 2 copies received July 13, 1907."

CLASS F, ENGRAVINGS, CUTS, AND PRINTS

The Catalogue of Copyright Entries appears each week. As the issue of Part 4 would necessitate the printing of a number of small alphabets for the different subject-matters contained in this Part—namely, Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts—it has been suggested that to avoid the inconvenience of searching such a number of small alphabets this Part of the Catalogue be made to include all the titles entered during each month instead of each week for Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts. Instead, therefore, of a possible examination of 52 indexes in the case of each subject-matter, it will now be necessary to examine only 12 indexes during the year.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space the copyright notice after each title is abbreviated; the statement as to receipt of copies is always omitted when the copies are received on the day of entry. The notice after the first title, if printed in full would read, "Copyright by Wilmer E. Adams, Fort Warren, Mass. Class F, XXc, no. 56806, Aug. 5, 1907; 2 copies received July 29, 1907."

The Catalogue of Copyright Entries appears each week. As the issue of Part 4 would necessitate the printing of a number of small alphabets for the different subject-matters contained in this Part—namely, Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts—it has been suggested that to avoid the inconvenience of searching such a number of small alphabets this Part of the Catalogue be made to include all the titles entered during each month instead of each week for Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts. Instead, therefore, of a possible examination of 52 indexes in the case of each subject-matter, it will now be necessary to examine only 12 indexes during the year.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space the copyright notice after each title is abbreviated; the statement as to receipt of copies is always omitted when the copies are received on the day of entry. The notice after the first title, if printed in full would read, "Copyright by Joseph Adams, Vincennes, Ind. Class F, XXc, no. 57465, August 26, 1907; 2 copies received August 19, 1907."

CLASS F, ENGRAVINGS, CUTS, AND PRINTS

The Catalogue of Copyright Entries appears each week. As the issue of Part 4 would necessitate the printing of a number of small alphabets for the different subject-matters contained in this Part—namely, Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts—it has been suggested that to avoid the inconvenience of searching such a number of small alphabets this Part of the Catalogue be made to include all the titles entered during each month instead of each week for Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts. Instead, therefore, of a possible examination of 52 indexes in the case of each subject-matter, it will now be necessary to examine only 12 indexes during the year.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space the copyright notice after each title is abbreviated; the statement as to receipt of copies is always omitted when the copies are received on the day of entry. The notice after the first title, if printed in full would read, "Copyright by W. L. Allen, Butler, Pa. Class F, XXc, no. 58542, October 1, 1907; 2 copies received September 25, 1907."

CLASS G, CHROMOS AND LITHOGRAPHS

Arranged alphabetically by proprietors with subalphabet of titles.

To save space, the copyright notice after each title is abbreviated; the statement as to receipt of copies is always omitted when the 2 copies have been received on the day of entry. Thus the notice after the first title, if printed in full, would read: Copyright by American lithographic company, New York, N. Y. Class G, XXc, no 17125, October 7, 1907; 2 copies received October 7, 1907.

CLASS F, ENGRAVINGS, CUTS, AND PRINTS

The Catalogue of Copyright Entries appears each week. As the issue of Part 4 would necessitate the printing of a number of small alphabets for the different subject-matters contained in this Part—namely, Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts—it has been suggested that to avoid the inconvenience of searching such a number of small alphabets this Part of the Catalogue be made to include all the titles entered during each month instead of each week for Engravings, Cuts, Prints, Chromos, Lithographs, Photographs, and works of the Fine Arts. Instead, therefore, of a possible examination of 52 indexes in the case of each subject-matter, it will now be necessary to examine only 12 indexes during the year.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space the copyright notice after each title is abbreviated; the statement as to receipt of copies is always omitted when the copies are received on the day of entry. The notice after the first title, if printed in full would read, "Copyright by J. Allred, jr., Toccoa, Ga. Class F, XXc, no. 60144, December 4, 1907; 2 copies received December 4, 1907.

Arranged alphabetically by proprietors with subalphabet of titles.

To save space the copyright notice after each title is abbreviated. The statement as to receipt of 2 copies is always omitted when the 2 copies have been received on the day of entry. The notice after the first title, if printed in full, would read: "Copyright by James E. Abbe, Newport News, Va. Class H, XXc, no. 102285, November 9, 1907; 2 copies received November 9, 1907."
